Claim Rejections - 35 USC § 112

Claims 1-14 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In line 1 of claim 1, the phrase or term "of the type" renders the claim indefinite since it includes elements not actually disclosed (those encompassed by "of the type"). The phrase "or the type" renders the scope of the claim unascertainable. See MPEP § 2173.05(d). In lines 3-4 of claim 1, applicant claims a plurality of separate areas each matching in shape and size the image which the relevant portion of the display is to show". Here, it is not clear at all as to what exactly applicant is attempting to claim. In line 5-7 of claim 1, applicant claims "which display the colour/reflectivity of one and/or another of the electroluminescent material and the surrounding insulator material is modified or is apparently modified so as to match that of the other". Here, it is not clear at all as to what exactly applicant is attempting to claim. Similar situations also appear in claims 6-9 and 12. From reading the given specification and viewing the drawings, the examiner cannot ascertain as to what exactly the applicant is attempting to claim. Further, applicant is requested to explain and show these claimed features in the provided drawing.

Regarding claims 1-14, claims 1-14 so informal (see rejection of claims under 35 USC 112, second paragraph) that no meaningful examination can be undertaken at this time. See MPEP 702.01.
